

SIMPSON

Strong-Tie

2016 DECK FRAMING WORKSHOP

®

You are cordially invited to the Simpson Strong-Tie Deck Framing Workshop presented by Wisconsin Building Supply. This FREE workshop is designed for residential building designers, building officials, plan reviewers, and builders interested in learning about the deck framing requirements of the UDC & IRC.

DATE: Tuesday, February 16, 2016

LOCATION: Wisconsin Building Supply

DESIGN CENTER
450 W. Johnson St.
Fond du lac, WI 54935

WORKSHOP HOURS:
11:00AM-1:00PM

*** A total of (2) Wisconsin contractor credits will be offered for attending***

TO REGISTER

- **Call (920) 583-4546 to RSVP**
****LUNCH WILL BE PROVIDED****

COURSE DESCRIPTION

The workshop will cover prescriptive deck framing provisions of the UDC & IRC. This workshop coincides with our Deck Framing Connection Guide, F-DECKCODE09. The flier contains the most cost effective connector and fastener solutions information for deck construction. This workshop will incorporate connection examples and assembly demonstrations of innovative new deck framing solutions. Special attention will be given to connections such as ledger board attachment, railing post attachment, stringer attachment among other. Simpson Strong-Tie trainers will be presenting code compliant solutions that will enable more efficient designs while maintaining structural safety. Upon completion of the workshop, attendees will have a clear understanding of the building code requirements and available options to meet them.

We look forward to seeing you there.
