

CERTIFIED DOOR SYSTEM INSTALLER PROGRAM

THERMA-TRU
DOORS

Online Completion Now Qualifies for Wisconsin CEU Credit!

Build your knowledge, skills and confidence with comprehensive door system installer training from Therma-Tru – the expert in fiberglass door systems – and OSI® – the expert in completely sealing the door opening.

Expert guidance. Professional results.

- Participants will receive credit for Wisconsin DSPS approved coursework **Exterior Door System Installation Training-Online Version (Course ID# 21566)** through on-line completion and certification.
- Program only qualifies for Wisconsin Dwelling Contractor Qualifier (DCQ) credentials.
- Three Credit Hours will be registered upon coursework completion, certification, and reporting to Therma-Tru.

Included in the program:

- **Step-by-Step Videos with Expert Guidance**
- **Job Aids and Supplement Video Content for Quick On-Site Reference**
Gain easy access to instructions that can be printed or viewed digitally.
- **Certified Door System Installer Status**
Give your customers confidence in your ability to correctly install their Therma-Tru door system for years of energy efficiency and weather resistance.
- **Certified Door System Installer Certificate & Card**
Proof that you've completed the program and have the additional training to ensure professional results.

Get started at thermatru.com/installer

Please submit a PDF copy of the participation certificate and State of Wisconsin DSPS Customer ID number to sklysen@thermatru.com for state registration of coursework completion.

Coursework completion will be registered with the Wisconsin Department of Safety and Professional Services under #21566 Exterior Door System Installation Training-Online Version once certification is submitted.
